*As a newly retired chartered engineer for a multi-national company, I moved to the area in 1998 with my wife where we found this lovely town in which to live. I am active in one of the town Churches and have served as secretary to the Kingsbridge District Churches Together, I am involved with the Kingsbridge Twinning Association and for several years was an officer of the Devonlane Credit Union, helping people to achieve their own financial security.*

*I care about our community and have a sense of civic pride; safety and security issues, the environment and community facilities are all high on the agenda and believe I can make a positive input into the future well running of the town and to the benefit of the people of Kingsbridge.*
