I have lived in Devon for a total of 34 years but have also lived in the North East and overseas. I was born in Plymouth and have lived in Kingsbridge for the past four years, previously having lived in Yealmpton where I was a parish councillor.

I help out as a co-ordinator for the Neighbourhood Watch Scheme in Waterside Park and coach football for KM Utd. I also help out at fundraising events for various charities based in Kingsbridge.

I have many interests locally and want to help provide improved services for our residents in relation to our car park situation in Kingsbridge and our local South Hams Hospital. I would also like to see improvements in the housing situation.

My main experience is in Procurement of goods and services whereby I negotiate with suppliers on products in relation to costs, quality and delivery.
